Forecast for Friday 08 Jul 2022

Weather: Extensive low cloud lifting from western upslopes shortly after dawn then dissipating in the morning sunshine. Fair weather cloud developing late morning with cloud bases above the summits, and persisting through the afternoon. Staying dry with the best of any sunshine to the east of the park. Feeling warm in the valleys but cooler over summits with a fresh westerly breeze.

Chance of cloud-free hill tops above 600m: 40% increasing to 100% by mid-morning.

Low cloud and visibility: Very poor across the western half of the park with low cloud base 300m covering summits, improving to good by mid-morning. Visibility may deteriorate again late evening as low cloud reforms.

Meteorologist's View

Challenging conditions very early in the morning under extensive low cloud, but once this clears it will be a fine day, particularly in the east. Strong sunlight is expected and UV protection advised.

Recent rainfall: measured at Cat & Fiddle: altitude 511m
